*Bulbs ~ Plants ~ Cut Flowers*

## Fall Planting Bulbs

All spring blooming bulbs should be planted after September 1 until December 1.

Prices as quoted are for extra first size bulbs. My bulbs are known for their size and quality. I do not quote cheap prices and furnish small bulbs at the price except when requested.

Prices of all bulbs are parcel post prepaid to the fifth zone, 10 cents per dozen over. Cash with order. Special prices quoted on larger quantities. Six at dozen price. Not more than three varieties in a dozen. Four of a kind, same price. Per 100 is seven times the dozen rate.

To see the beauty of the many different varieties you should visit the garden at least once a month throughout the entire summer. Remember, you are always welcome.

## Hyacinths

Plant them six inches deep and eight inches apart. All Hyacinths are first size, 17 centimeters or over.

	Each	Doz.
